

UP & DOWN

SET-UP

### Model RF-20005 Set-Up

Designed and Developed for the Laser Standard, Radial and 4.7. Fitted with the innovative Set-Up system that provides a telescopic arm to support the Gunwale.

### BENEFITS

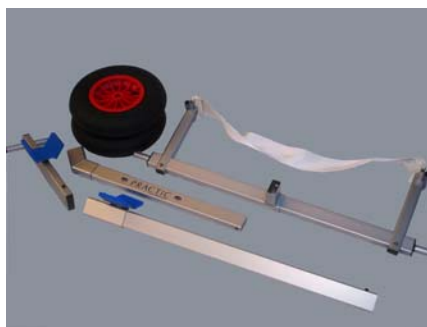

The boat is more stable and better supported even when the sails are hoisted. Lowering the telescopic supports the hull is well supported and steadily slides into the water when released.

Wheel Self locking system.

Press to release or lock wheels

Complete trolley in four parts, assembled without tools, push and lock fit. Easy to carry.

Manufactured in extruded aluminium type 6082 and T-6 anodised for longevity.
